LONGHORNS FOR LIFE!

New Technology for Students

STUDENT COMPUTERS / CHROMEBOOKS

1. Every student will receive a chromebook this year.
2. Students are expected to bring them to class everyday- charged and ready for use.
3. Students will be responsible for the care of their chromebook and keep it protected and in working condition. REMINDER: Students should read and sign the Device Responsibility Sign-Off in their StudentVUE portal.
4. Students may not use their own device instead of the school issued chromebook. WHY? Due to security, specific software, and classroom lessons, all students need to use the same device.

CELL PHONE POLICY

- Due to students being provided a chromebook for daily instruction and lessons, there is no need to access a cell phone during class time.
- Students may use their cell phone before and after school, in between classes and at lunch. Consequences will be given to students who are on their cell phone during instructional time.
