

It is time for the 2023-2024 Math Club to begin! Math Club provides students the opportunity to play a game called Witzzle Pro in a friendly club atmosphere while competing against peers. In Witzzle Pro, students use one-digit numbers to create and write equations that must equal a target number. The game requires quick thinking and knowledge of basic operations (+, -, x, /). Students will compete against other elementary school teams in a cluster-wide Witzzle Pro tournament held in March.

In order to build a competitive team, we will hold try-outs for interested 4th and 5th grade students on Wednesday, September 13th at 7:00 AM. Students will be tested on their knowledge of the basic math facts and completion of multi-step equations using the order of operations.

Math Club will meet most Wednesday mornings before school in the cafeteria, from 7:00 to 7:45 AM. Students will be contacted with a letter on Thursday, September 14th with more information if they made the team. The club fee is \$50.

If your child is interested in trying out for the team, please return the completed form below by Monday, September 11th to Mrs. Matesevac (Math Specials). There is no payment due until your student is accepted into Math Club.

----- (Please return this bottom portion) -----

Math Club try-outs will be Wednesday, September 13, 2023 at 7:00AM

Drop-off in the car rider lane – earliest is at 6:50 AM

Please do not leave a child without adult supervision. A teacher will let them in through the cafeteria door.

Please print legibly:

Child's Name _____ Grade _____ Teacher _____

I give my child permission to try out for Math Club.

Parent Signature _____ Date _____
