Dear Parents and/or Guardians,

We all share a common goal for our children to be safe and protected from all things harmful. Related to that goal, Senate Bill 401 requires annual age-appropriate sexual abuse and assault awareness and prevention in kindergarten through grade 9. Teen Lures™ Prevention is a research-based program that Gwinnett County Public Schools uses to teach the importance of healthy relationships and its connection to personal safety by way of class discussions, student handouts, video clips and corresponding activities. The program curriculum was submitted and reviewed by the Community Health Education Advisory Committee. The purpose of the Teen Lures™ Prevention program is to enable students to take an active and necessary role in making healthy choices and protecting themselves from unhealthy relationships. A committee of professional school counselors reviewed the program and selected components that were appropriate for middle school.

During the month of January, our school counselors will offer lessons from the Teen Lures™ Prevention program to students in grades 6-8. You can learn more about the program at www.teenluresprevention.com. Please be aware that more information is provided on the website than is actually used in our schools. Students will review what was learned in previous grade(s) and then discuss the following lures:

6 th	Game Lure	e-lure	Name Lure	Emergency Lure
7 th	Authority Lure	Assistance Lure	Ego/Fame Lure	
8 th	Affection Lure	Trafficking Lure	Pet Lure	

If you prefer that your child not participate in the Teen Lures™ Prevention lessons, please write and sign a note indicating your preferences and send it to your child’s teacher or school counselor. Unless written documentation is received, your child will have the opportunity to participate in the teen lures prevention and safety lessons. As always, counselors are available to discuss any concerns you might have.

Sincerely,

School Principal
