

Diabetes Supplies – Parent Checklist for School

Dear Parents/Guardians,

In order to safely care for your child at school, please ensure you bring the following to school:

Diabetes Medical Management Plan (DMMP), current for school year

**Don't forget to sign the plan

Glucometer, test strips, lancet device, lancets

**Even if your child has a Dexcom or Freestyle Libre

Insulin (vial and syringe, pen and needles, back up pump supplies)

Glucagon, G-voke, or Baqsimi (with prescription label)

Fast-acting carb (juice, glucose tabs, etc.)

Extra snacks with protein, fat, and carbs (to be kept in clinic)

Ketone strips

Daily water bottle (optional water bottles to keep in clinic)

Alcohol wipes (optional)

Clear plastic shoebox-size storage bin for supplies (strongly recommended)

Thank you!
